

Living and Nonliving Things

BINGO

Rough and Smooth Scavenger Hunt

Choose an animal. How is the parent animal different from its offspring?

Animal Features

Make a poster to identify the basic needs of living things.

Plant Journal

Write five facts about your favorite animal. Then, create your own non-fiction book.

Animals Impact Their Environment

If you could be any nonliving object what would you be and why?

Animals in Different Habitats

Grades 1-2

Living and Nonliving

BINGO

Learn at Home with PBS KIDS

**Week of
April 5th**

Hello, Families!

Welcome to **Learn Along Bingo!** We're happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With Learn Along Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

It's Living and Nonliving Things Week!

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

Learning Spotlight: Living and Nonliving Things

Plants, animals, and insects all have external parts. Children will practice describing their color, size, shape, and texture.

Show What You Know: Plant Journal

The last activity in this packet is a perfect way for children to learn about taking care of plants.

Tune in: Watch NATURE CAT at 12pm ET on Tuesday, April 6th on the PBS KIDS 24/7 channel.

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at pbskids.org/video/livetv or on your local PBS station.

Happy learning!

Search for Textured Treasures!

From a prickly pinecone to a soft sweater, everything we touch has texture. How many textures can you find inside or outside of your house? Race the clock or race a friend with this printable scavenger hunt!

Instructions:

- 1) Print the scavenger hunt table (on the following page). If you are playing with a friend, print two.
- 2) Begin hunting for textures on your list.
- 3) When you find something, draw a picture or write the object's name next to its matching texture.

TEXTURE describes the feel or appearance of an object or the material an object is made of.

More Ways to Play:

- Instead of drawing or writing, snap photos with a digital camera or camera phone.
- In the spaces on your sheet, make crayon rubbings of the textures you find.
- Target your scavenger hunt. Look for objects in nature, in your kitchen, or a specific room.
- Explore other senses. Find things with different colors, smells, or even tastes. (Tastes found in the kitchen, of course.)

Plant Journal

Create your own miniature garden and watch your plant grow. Use this journal to track the growth of your plant over the next few weeks.

TALLY HO! LET'S HAVE FUN!

1. Print out this plant journal.
2. Cut out the journal pages along the dotted lines so that you have 8 pages for your journal.
3. Stack all of the journal pages together so that they are in order pages 1 through 8.
4. Staple the top left corner of the pages to make a book.
5. Follow the directions on each page of the journal. Now you can use your journal to keep track of your plant as it grows.

(Name) page 1

Today, I planted _____.

(type of seed)

I put the seed in the soil and watered it.

My plant likes _____ sunlight,

(a lot of/a little)

so I will put my plant _____.

(outside/in a window sill/on a table)

I will water my plant _____.

(how often the plant should be watered)

page 2

This is what my plant looked like on the day I planted it.

page 3

This is what my plant looked like after 3 days.

page 5

This is what my plant looked like after 2 weeks.

page 6

This is what my plant looked like after 1 month.

page 7

Is your plant all grown up?

If it is a plant that would like to be outdoors, carefully move it to a nice spot in your yard or garden in the spring or summer. If it is a plant that would like to stay indoors, keep it on a sunny or well-lit windowsill or table. Remember to keep watering your plant.

Is your plant still sprouting? No problem!

Some seeds take longer to sprout and grow than others. It can take several weeks for your plant to sprout and start to grow. Keep giving your plant water and light.

Did your plant wilt quickly or never grow? It's okay!

Gardening takes practice. The plant may have gotten too much water, not enough water, not enough sunlight, or it was too hot or too cold. Sometimes plants will only grow in certain seasons. You can try again with new seeds.
