

Patterns BINGO

Telling Time

Make a sound pattern and invite someone to make one too.

The Seasons

Choose two shapes. Make a pattern, drawing one and then the other.

Animal Patterns

Using your body, choose three movements to make a pattern. You can jump, clap, and wiggle!

Life Cycle of a Flower

Make a pattern with big and small objects.

Nature Cat's Recycling Challenge

PreK-K

Patterns

BINGO

Learn at Home with PBS KIDS

**Week of
January 25th**

Hello, Families!

Welcome to **Learn Along Bingo!** We're happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With Learn Along Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

It's Patterns Week!

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

Learning Spotlight: Patterns

Recognizing patterns is important because it helps us to develop investigation and prediction skills. We learn how to solve even more challenging problems.

Show What You Know: Animal Patterns Activity

The last activity in this packet is a perfect way for children to learn about patterns.

Tune in: Watch PEG + CAT at 7am on Tuesday, January 26th on the PBS KIDS 24/7 channel.

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at pbskids.org/video/livetv or on your local PBS station.

Happy learning!

Telling Time

Instructions: Cut out the clock hands and attach them to the center of the clock face with a paper fastener. After you make the clock, pick a card and practice setting the clock to that time.

Big Hand

Little Hand

The Seasons

Name

There are four seasons each year: winter, spring, summer and fall. They always follow the same pattern. During each season, there are different activities we enjoy and different clothes we wear. Some animals, like bears, frogs, and bats, hibernate in the winter because it is cold. In spring, plants and trees grow buds and leaves. In summer, it might be hot and you might need to wear sunscreen and sunglasses. In fall, the leaves on trees may change colors and fall on the ground. Draw in each section of the wheel, one thing that you might see in each of the seasons.

Life Cycle of a Flower

Name _____

When Tiny goes on a **Nature Trackers** adventure to visit her favorite flowers, she is sad when she sees them wilting. Mr. Conductor shows her that every living thing changes during its life cycle. Seeds grow into little plants. Then the plant grows flowers. When the flowers wilt, the petals and seeds drop to the ground where they can grow into new flowers!

YOU can be a Nature Tracker too!
 Observe what kinds of plants and flowers are growing in your neighborhood. Draw and write about them on the back side of this paper.

Nature Cat's Recycling Challenge

It is important for everyone to do their part to keep the world we live in beautiful. Recycling is a process that helps save our natural resources and protects animals too. In this activity, do your part and develop important early math skills by sorting recyclable materials into their correct bins.

What you'll need:

- 3 bins (labeled Paper, Cans, and Plastics)
- Materials to sort from the three categories: cans, soda bottles, water bottles, newspaper, magazines, looseleaf paper, etc.
- Scissors
- Crayons, colored pencils and/or paint

The Activity:

- There are three categories of materials: Papers, Cans, and Plastics
- Pick up materials to be tossed out and sort them in the correct bin.
- You will earn a 'Recycling Expert' badge that you can color- as you work to help care for the environment and each other.
- Encourage other people to help out and participate in the 'Recycling Challenge' too.
