Independent Auditor's Report

To Management of the Louisiana Educational Television Authority Baton Rouge, Louisiana

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, and each major fund of the Louisiana Educational Television Authority, a component unit of the State of Louisiana, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Louisiana Educational Television Authority's basic financial statements as listed in the table of contents

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, including the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Friends of Louisiana Public Broadcasting (the "Affiliate"), a nonprofit organization, which statements reflect total assets of \$676,311 and \$534,449, as of June 30, 2018 and 2017, respectively, and total support and revenues of \$2,540,831 and \$2,545,433 for the years then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Affiliate, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, and each major fund of the Louisiana Educational Television Authority and Friends of Louisiana Public Broadcasting, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the Louisiana Educational Television Authority's 2017 combined financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated January 10, 2018. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2017 is consistent, in all material respects, with the audited financial statement from which it has been derived.

Emphasis of a Matter

As explained in Note 1 to the financial statements, the columns labeled Affiliate (Friends of Louisiana Public Broadcasting), total, intercompany eliminations, and combined within the financial statements are captioned "memorandum only" to indicate that this information is presented only to facilitate financial analysis as required by reporting guidelines established by the Corporation for Public Broadcasting.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis; schedule of budgetary comparison – general fund; schedule of employer's proportionate share of the total collective OPEB liability; schedule of employer's proportionate share of net pension liability; and schedule of employer's pension contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or

historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the combined financial statements of the Louisiana Educational Television Authority. The accompanying combining statement of functional expenditures, schedule of direct revenues, schedule of expenses, and revenue reconciliation are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining statement of functional expenditures, schedule of direct revenues, schedule of expenses, and revenue reconciliation is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic combined financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules are fairly stated, in all material respects, in relation to the basic combined financial statements as a whole.

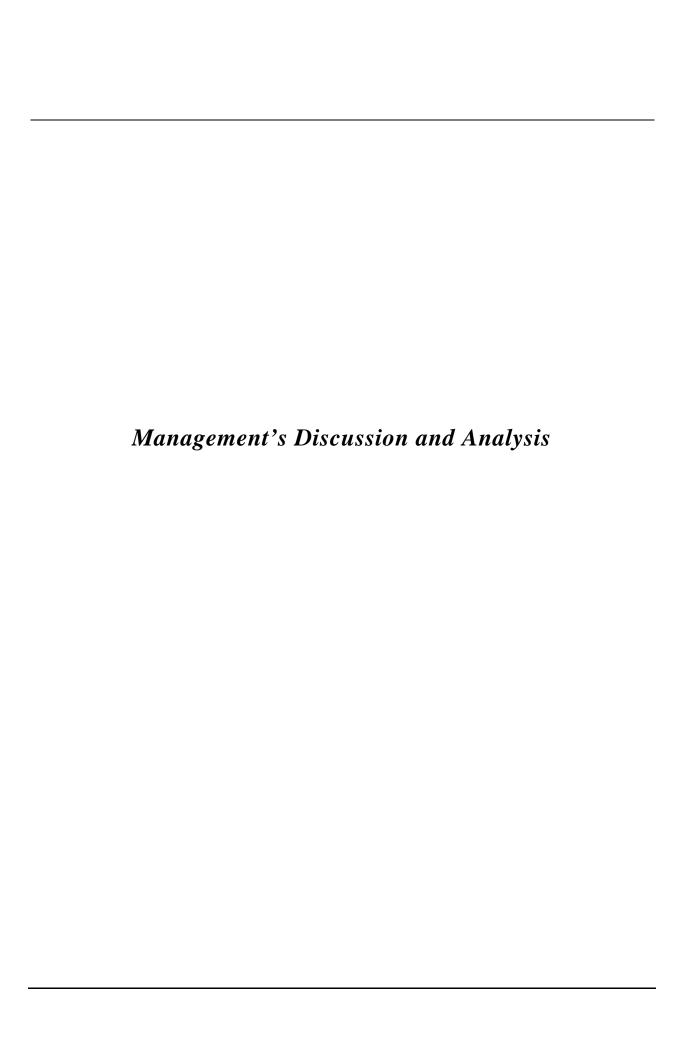

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 2, 2019, on our consideration of the Louisiana Educational Television Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Louisiana Educational Television Authority's internal control over financial reporting and compliance.

Restriction of Use

This report is intended solely for the information and use of Louisiana Educational Television Authority and the Corporation for Public Broadcasting and is not intended to be and should not be used by anyone other than these specified parties.

Linell & Martiney, 1/c
Covington, Louisiana
January 2, 2019

Introduction

The Management's Discussion and Analysis ("MD&A") of the Louisiana Educational Television Authority ("LETA") presents a narrative overview and analysis of LETA's financial activities for the year ended June 30, 2018. This section focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information.

As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes and the supplementary information that is provided in addition to the MD&A.

Financial Highlights

The following financial highlights are derived from the financial statements included in this report and provide an overview into the financial status of LETA.

- LETA's liabilities exceeded assets at June 30, 2018 by \$21,061,892. Total assets decreased by \$87,597 approximately 3%, from June 30, 2017 to June 30, 2018.
- Capital assets acquired by LETA are not included in the accompanying financial statements, since LETA acts only as a custodian of these assets and title actually rests with the State of Louisiana.
- LETA had no debt instruments (notes payables or bonds) in the current fiscal year.

In addition to the information contained in this report that directly reflects LETA's financial status, a component unit, the Foundation for Excellence in Louisiana Public Broadcasting (the "Foundation") is also shown.

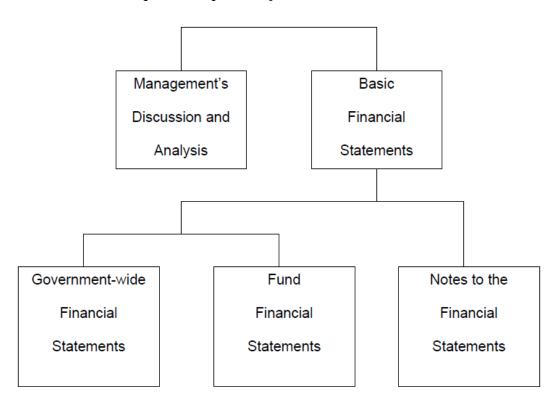

- Foundation's assets exceeded liabilities at June 30, 2018 by \$39,964,063. Total assets increased by \$2,283,562, approximately 6%, from June 30, 2017 to June 30, 2018.
- The Foundation's net results from activities decreased by \$1,551,171, approximately 42%, from June 30, 2017 to June 30, 2018.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Authority's basic financial statements. LETA's basic financial statements consist of three components: government-wide financial statements, fund financial statements, and notes to the financial statements.

The basic financial statements present two different views of LETA through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of LETA.

Required Components of the Financial Statements

Basic Financial Statements

The first two statements in the basic financial statements are the government-wide financial statements. They provide both short and long-term information about LETA's financial status. The next statements are fund financial statements. These statements focus on the activities of the individual parts of LETA's operations and provide more detail than the government-wide statements.

The next section of the basic financial statements is the notes to financial statement. The notes to financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show greater details on LETA's operations. Budgetary information can be found in this part of the statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of LETA's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about LETA's financial status as a whole.

The statement of net position presents the current and long-term portions of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. This may provide a useful indicator of whether the financial position of LETA is improving or deteriorating.

The statement of activities presents information showing how LETA's net position changed as a result of current year operations. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

Fund Financial Statements

The fund financial statements provide a more detailed look at LETA's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. LETA, like all other governmental entities, uses fund accounting to ensure and reflect compliance (or noncompliance) with finance-related legal requirements, such as the General Statutes or LETA's budget requirements. LETA's fund financial statements consist of only governmental funds.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report includes certain required and other supplementary information as listed in the table of contents.

Financial Analysis of the Entity

Louisiana Educational Television Authority

The following is a condensed Statement of Net Position for LETA at June 30, 2018 with comparative amounts at June 30, 2017:

	2018	2017	Variance	% Variance	
Assets Current assets	\$ 2,845,050	\$ 2,932,647	\$ (87,597)	-2.99%	
Deferred outflows of resources	1,993,632	3,422,942	(1,429,310)	-41.76%	
Described outflows of resources	\$ 4,838,682	\$ 6,355,589	\$ (1,516,907)	-23.87%	
Liabilities					
Current liabilities	\$ 281,117	\$ 256,535	\$ 24,582	9.58%	
Noncurrent liabilities	23,625,825	25,673,506	(2,047,681)	-7.98%	
	23,906,942	25,930,041	(2,023,099)	-7.80%	
Deferred inflows of resources	1,445,407	1,145,589	299,818	26.17%	
Net Position					
Restricted for capital projects	2,276,198	2,249,162	27,036	1.20%	
Unrestricted	(22,789,865)	(22,969,203)	179,338	0.78%	
	(20,513,667)	(20,720,041)	206,374	1.00%	
	\$ 4,838,682	\$ 6,355,589	\$ (1,516,907)	-23.87%	

LETA adopted GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, during the June 30, 2018 fiscal year which resulted in a restatement of deferred outflows of resources, deferred inflows of resources, and noncurrent liabilities at June 30, 2017 which is reflected in the above condensed statement of net position.

Restricted net position represents amounts that are not available for spending as a result of legislative requirements. Conversely, unrestricted net position represents amounts that do not have any limitations on how it may be spent.

Noncurrent liabilities decreased by \$2,047,681, approximately 8%, from June 30, 2017 to June 30, 2018 primarily from the most recent pension plan valuation reducing LETA's net pension liability.

The following is a condensed Statement of Activities for LETA for the year ended June 30, 2018 with comparative amounts for the year ended June 30, 2017:

	2018			2017		Variance	% Variance	
Revenues								
Program revenues								
Charges for services	\$	837,287	\$	685,509	\$	151,778	22.14%	
Capital grants and contributions		41,445		49,278		(7,833)	-15.90%	
General revenues								
State appropriations		5,532,059		5,747,301		(215,242)	-3.75%	
General contributions		131,900		125,925		5,975	4.74%	
Support from component unit		2,860,274		750,000		2,110,274	281.37%	
Interest		27,036		13,760		13,276	96.48%	
		9,430,001		7,371,773		2,058,228	27.92%	
Expenses								
Program services		5,878,144		8,817,016		(2,938,872)	-33.33%	
Management and general		975,058		1,543,920		(568,862)	-36.85%	
		6,853,202		10,360,936		(3,507,734)	-33.86%	
Change in net position		2,576,799		(2,989,163)		5,565,962	186.20%	
Capital assets purchased for								
the benefit of the State of LA		(2,370,425)		(136,984)		(2,233,441)	-1630.44%	
Net position, beginning of year	(20,720,041)	((17,593,894)		(3,126,147)	-17.77%	
Net position, end of year	\$ (20,513,667)	\$ ((20,720,041)	\$	206,374	1.00%	

LETA adopted GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, during the June 30, 2018 fiscal year which resulted in a restatement of deferred outflows of resources, deferred inflows of resources, and noncurrent liabilities at June 30, 2017. The program services and management and general expenses in the above condensed statement of activities reflects this change.

LETA's total revenues increased by \$2,058,228, approximately 28%, from June 30, 2017 to June 30, 2018 due primarily from an increase in support received from the component unit. However, state appropriations decreased by \$215,242 from June 30, 2017 to June 30, 2018. Expenses decreased by \$3,507,734, approximately 34%, from June 30, 2017 to June 30, 2018 caused primarily by changes relating to LETA's pension and OPEB plans.

Foundation for Excellence in Louisiana Public Broadcasting

The following is a condensed Statement of Net Position for the Foundation at June 30, 2018 with comparative amounts at June 30, 2017:

	2018	2017	Variance	% Variance
Assets Current assets	\$ 40,658,636	\$ 38,375,074	\$ 2,283,562	5.95%
Liabilities Current liabilities	\$ 694,573	\$ 573,040	\$ 121,533	21.21%
Deferred inflows of resources	-	73,840	(73,840)	-100.00%
Net Position				
Unrestricted	39,964,063	37,728,194	2,235,869	5.93%
	\$ 40,658,636	\$ 38,375,074	\$ 2,283,562	5.95%

Restricted net position represents resources that are not available for spending as a result of grant or debt requirements. Conversely, unrestricted net position are resources that do not have any limitations on how these amounts may be spent.

Current assets increased by \$2,283,562, approximately 6%, from June 30, 2017 to June 30, 2018. The primary reason for the change is an increase in the value of investments.

The following is a condensed Statement of Revenues, Expenses, and Changes in Net Assets for the Foundation for the year ended June 30, 2018 with comparative amounts for the year ended June 30, 2017:

	2018	2017	Variance	% Variance	
Revenues					
Grants and contributions	\$ 4,887,329	\$ 3,393,925	\$ 1,493,404	44.00%	
Underwriting and productions	1,562,605	1,565,923	(3,318)	-0.21%	
Investment returns	2,452,531	3,614,005	(1,161,474)	-32.14%	
Endowment returns	334,435	492,819	(158,384)	-32.14%	
	9,236,900	9,066,672	170,228	1.88%	
Expenses					
Program services	3,457,950	3,894,689	(436,739)	-11.21%	
Management and general	682,807	708,783	(25,976)	-3.66%	
Support to LETA	2,860,274	750,000	2,110,274	281.37%	
	7,001,031	5,353,472	1,647,559	30.78%	
Change in net position	2,235,869	3,713,200	(1,477,331)	-39.79%	
Net position, beginning of year	37,728,194	34,014,994	3,713,200	10.92%	
Net position, end of year	\$ 39,964,063	\$ 37,728,194	\$ 2,235,869	5.93%	

As part of the broadcast spectrum incentive auction, the Federal Communications Commission (the "FCC") is authorized to repack the television band by assigning television stations to new channels. As part of this initiative, the Foundation is managing the updates to transmitter stations in Alexandria and Shreveport. The Foundation was reimbursed by the FCC (see note 12) for a portion of these costs which is the primary cause of grants and contributions increasing by \$1,493,404 from June 30, 2017 to June 30, 2018, approximately 44%.

Assets are transferred from the Foundation to LETA at year-end and reported as "financial support transferred to LETA" since all assets are carried by the State of Louisiana. Support paid to LETA increased by \$2,110,274, approximately 281%, from June 30, 2017 to June 30, 2018 primarily from the transmitter station assets being transferred to LETA.

Total investment and endowment investment returns decreased by \$1,319,858 from June 30, 2017 to June 30, 2018 due primarily to the Foundation's investment portfolio not performing as well as the previous fiscal year.

General Fund Budgetary Highlights

In order to cope with reductions in state general fund appropriations, LETA has had to rely on increased entrepreneurial activities and increased support from the Foundation for Excellence in Louisiana Public Broadcasting. In addition, LETA has continued to decrease operating expenses through continued performance and quality improvement efforts and delayed equipment and building maintenance and repairs whenever possible. There were no significant reductions in services provided.

Factors Considered in the Development of Next Year's Budget and Goals

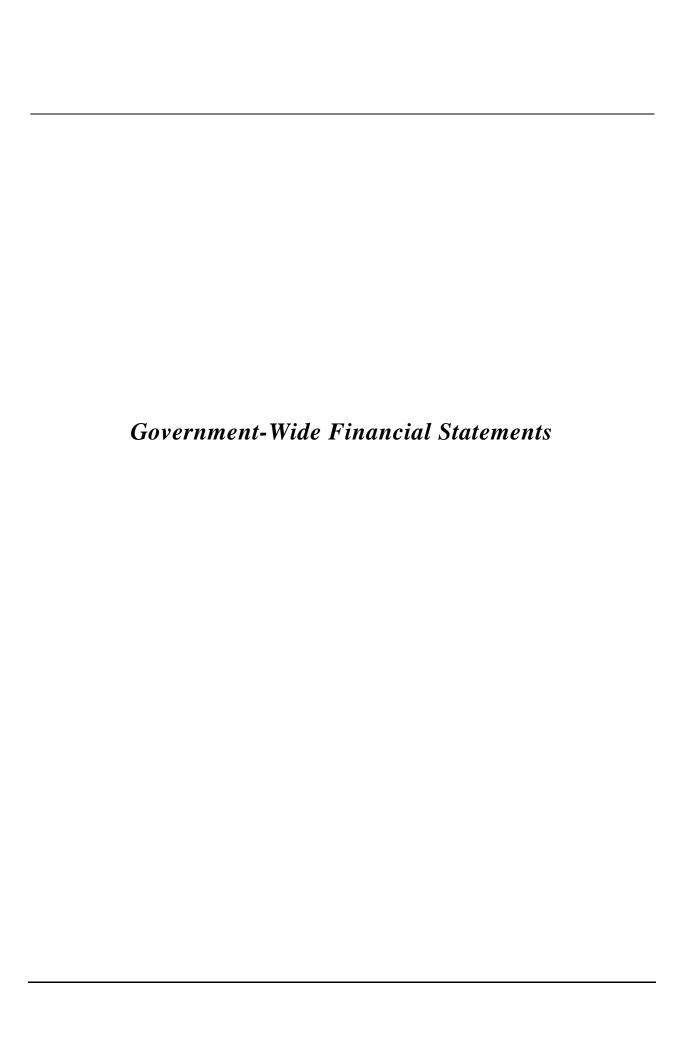

LETA's officials considered the following factors and indicators when setting next year's budget, establishing fiscal year goals, and addressing other issues that will impact LETA's operations. Included among the factors considered were:

- A 32% decrease in LETA's state general fund appropriation over the past 10 years.
- A 323% increase in LETA's self-generated revenue budget appropriation over the past 10 years.
- LETA's dedicated staff continues to shoulder increasing responsibilities as the staff has been reduced by 27% over the past 13 years from 91 employees in fiscal year 2006 to the current staff of 66.
- Continued partnership with the Office of the Secretary of State to expand the digital media archive library of Louisiana's historical media collection.
- Continue to work closely with the Louisiana Department of Culture, Recreation and Tourism to promote Louisiana across the nation as a premier tourist destination.
- Continued commitment to LETA's pre-K literacy programs through an increased number of Super Why Camps and other early childhood initiatives.
- Continued partnership with the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP) to enhance GOHSEP's education and training programs and to expand community outreach and public awareness related to hurricane preparedness and other emergency situations.
- Continued reliance on singular production projects for basic state operating budget.

Contacting the Louisiana Educational Television Authority

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of LETA's finances and to show LETA's accountability for the money it receives. Louisiana Educational Television Authority

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Combined Statement of Activities

For the Year Ended June 30, 2018

With Comparative Amounts for the Year Ended June 30, 2017

	2018		2017	
Decrease in fund balances as shown on the statement of				
revenues, expenditures, and changes in fund balances	\$	(111,657)	\$	(15,626)
Governmental funds report capital outlays as expenditures.				
In the combined statement of activities, the cost of these assets				
should be allocated over the estimated useful lives as depreciation				
expense. However, Louisiana Educational Television Authority				
is only the custodian of these assets and the State of Louisiana				
is the owner. Neither the capital assets nor the depreciation				
expense are recorded in these financial statements.				
Capital assets purchased for the benefit of the State of Louisiana		2,370,425		136,984
Some expenses reported in the combined statement of activities do				
not require the use of current financial resources; therefore,				
are not reported as expenditures in governmental funds:				
Change in accrued compensated absences		(10,435)		34,234
Change in pension liability		1,575,861		(342,535)
Change in other postemployment benefits (OPEB) liability		481,733		(332,974)
Changes in deferred outflows of resources related to the				
pension and OPEB plans		(1,429,310)		1,450,239
Changes in deferred inflows of resources related to the				
pension and OPEB plans		(299,818)		(1,010,108)
Increase (decrease) in net position as reflected				
on the statement of activities	\$	2,576,799	\$	(79,786)

1. History and Summary of Significant Accounting Policies

Organization

The Louisiana Educational Television Authority ("LETA") is a political subdivision of the State of Louisiana's executive branch. LETA is supervised by its members as provided in Louisiana Revised Statutes 17:2503.C. LETA is charged statutorily with making the benefits of educational and public television available to and promoting their use by citizens of Louisiana. LETA's operations are funded through an annual lapsing legislative appropriation. In addition, LETA has received funds from the State of Louisiana for the purpose of constructing and maintaining transmitter and tower facilities throughout the State. Amounts included within LETA's foregoing financial statements are also included in the State of Louisiana's comprehensive annual financial report.

The Foundation for Excellence in Louisiana Public Broadcasting (the "Component Unit") was established August 7, 1992 as a nonprofit Louisiana Corporation. It was organized to direct all of its efforts to the support of the LETA. The Component Unit provides for an endowment to support public television in the State of Louisiana and may serve as a "repository" for funds to be utilized for the promotion, development, enhancement and assistance of public television in Louisiana. Furthermore, the Component Unit operates under the authority of its Board of Directors. The Directors are nominated and appointed by the existing LETA Directors.

Friends of Louisiana Public Broadcasting, Inc. (the "Affiliate") is a Louisiana non-profit corporation that was incorporated on April 30, 1991. The Affiliate solicits funds for the benefit of LETA which operates Louisiana Public Broadcasting ("LPB"). The Affiliate operates under authority of its autonomous Board of Directors. The administrative office of the Affiliate is located in the LPB broadcast center in Baton Rouge, Louisiana.

Financial Reporting Entity

Based upon an assessment by the Louisiana Division of Administration - Office of Statewide Reporting and Accounting Policy ("OSRAP"), the Foundation for Excellence in Louisiana Public Broadcasting is included as a component unit of LETA. The Governmental Accounting Standards Board ("GASB") issued Statement No. 61 (GASB 61), "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and 34" to determine if a component unit is included in the financial reporting entity of its primary government. It has been determined that LETA is able to impose its will on the Component Unit and the Component Unit provides specific financial benefits to, and may impose specific financial burdens on, LETA. In addition, OSRAP has determined that exclusion of the Component Unit from the financial reporting entity would render LETA's financial statements to be misleading or incomplete. Therefore, LETA's financial statements present the operations of the Foundation for Excellence in Louisiana Public Broadcasting as a discretely presented component unit.

The Component Unit and Affiliate are private nonprofit organizations that report under the Financial Accounting Standards Board ("FASB"), including FASB Accounting Standards Codification 958, *Not-for-Profit Entities*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. Nevertheless, the Component Unit and Affiliate follows LETA's - the primary government – financial reporting framework within these financial statements. Therefore, modifications have been made to the Foundation's financial information for these differences.

The Component Unit reported grants totaling \$73,840 as temporarily restricted net assets for the year ended June 30, 2017 due to the Foundation not meeting the grants' specifications prior to year-end. To comply with the primary government's financial reporting framework, the grant revenues have been reduced by \$73,840 and are reported as deferred inflows of resources at June 30, 2017. These grants were earned during the 2018 fiscal year and reported as grant revenue for the year ended June 30, 2018. The Foundation's audited financial statements can be obtained from the Foundation for Excellence in Louisiana Public Broadcasting's management.

Management has determined that the assets and revenues of the Affiliate do not meet the threshold for reporting component units. Therefore, the funds of the Affiliate were not presented in LETA's statements for the years ended June 30, 2018 and 2017 but are presented in this combined annual financial report for analysis purposes only for reporting to the Corporation for Public Broadcasting ("CPB"). The Affiliate's audited financial statements can be obtained from Friends of Louisiana Public Broadcasting's management.

Financial Statement Presentation

LETA's financial statements include both government-wide and fund financial statements which categorize all of LETA's activities as governmental.

• Government-Wide Financial Statements:

In the government-wide statement of net position, the governmental activity column is presented on a consolidated basis by column and is reported on a full accrual, economic resource basis. This basis recognizes all long-term assets and receivables as well as long-term debt and obligations. LETA's net position is reported in two parts – restricted for capital projects and unrestricted.

In addition, the government-wide statement of activities reports both the gross and net cost of each of LETA's functions. The functions are also supported by general government revenues; such as: appropriations from the State of Louisiana, earnings on the capital projects cash account, and support transferred from the Component Unit. The statement of activities reduces gross expenses by related program revenues and grants. Program revenues must be directly associated with the function. Grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital specific grants. The net costs (by function) are normally covered by general revenues. LETA does not allocate indirect costs. This government-wide focus is more on the sustainability of LETA as an entity and the change in LETA's net assets resulting from the current year's activities.

• Net Position:

The statement of net position reports net position as the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position is displayed in three components:

 Net investment in capital assets - consists of capital assets including restricted capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- o Restricted consists of amounts with constraints placed on the use by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted all other amounts that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is LETA's policy to use the restricted resources first, then unrestricted resources as needed.

Fund Financial Statements:

The financial transactions of LETA are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

All of LETA's funds are reported as governmental funds. The focus of the governmental funds measurement – in the fund financial statements – is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of LETA:

- o The general fund is the general operating fund of LETA. It is used to account for the legislative appropriations provided to fund the general operating expenses of LETA and those other expenses not funded through other specific legislative appropriations of revenues.
- o The capital projects fund is used to account for specific legislative appropriations and state general obligation bond revenues for the construction and maintenance of transmitter and tower facilities at the stations and conversion to digital transmission comprising LETA's network.

Fund Balance

In fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy primarily on the extent to which LETA is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in the following five components:

- o Nonspendable This component consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- O Restricted This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributions, or laws or regulations of other governments) or by law, through constitutional provisions or enabling legislation. Enabling legislation authorizes LETA to assess, levy, change or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement (compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.

- o Committed This component consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of LETA. Those committed amounts cannot be used for any other purpose unless LETA removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed previously to commit those amounts.
- o Assigned This component consists of amounts that are constrained by LETA's intent to be used for specific purposes, but are neither restricted nor committed. The authority for assigning fund balance is expressed by LETA or the designee as established in LETA's fund balance policy.
- Unassigned This component consists of amounts that have not been restricted, committed or assigned to specific purposes within the general fund. When both restricted and unrestricted resources are available for use, it is LETA's policy to use restricted resources first, then unrestricted resources (committed, assigned and unassigned) are available for use.

It is LETA's policy to use committed resources first, then assigned, and then unassigned as they are needed.

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual

Governmental-type activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means that the amount of the transaction can be determined, and "available" means that the amount of the transaction is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all governmental fund type revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due.

Principles of Combination

The accompanying Combined Statement of Net Position and Combined Statement of Activities are presented as combined financial statements for analysis purposes. The primary government, LETA, leases office space to the Component Unit and Affiliate. In addition, the Affiliate transfers funds in excess of specified amounts to the Component Unit, and the Component Unit provides financial support to LETA. The material transactions and accounts between the related entities have been eliminated. See Note 12 for further detail on related party transactions.

Memorandum Columns

The Affiliate, total, intercompany eliminations, and combined columns in the Combined Statement of Net Position and the Combined Statement of Activities are captioned "memorandum only" to indicate that this information is presented only to facilitate financial analysis as required by reporting guidelines established by the Corporation for Public Broadcasting, a federal awarding agency.

Reclassifications

Certain reclassifications have been made to the June 30, 2017 financial statements to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and revenues and expenses reported during the period. Actual results could differ from those estimates.

Budgets and Budgetary Accounting

LETA's budgetary process incorporates a yearly appropriation process, which is valid for a period of one year. Louisiana statute provides for an extension period of 45 days in order to liquidate encumbrances established prior to June 30. Budget revisions are allowed and implemented by budgetary amendment with approval of the Legislative Budget Committee and by interim emergency appropriations granted by the Interim Emergency Board. The budgetary information presented in the financial statements represented the last approved budgetary revisions enacted as reflected by the last approved budgetary amendment.

This budgetary information was adjusted for prepaid lease expense, general fund transfers between the General Fund and the Capital Outlay Fund, and in-kind contributions since LETA does not budget for these transactions. In addition, this budgetary information was adjusted for encumbrances outstanding at year end, and for other miscellaneous adjustments which were in the original budget but not recorded in the financial statements

Budgetary data for the Capital Project Funds has not been presented in the accompanying financial statements as such funds are budgeted over the life of the respective project and not on an annual basis.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Encumbrances

Encumbrances representing purchase orders, contracts or other commitments are recorded in budgetary funds to reserve portions of applicable appropriations. Encumbrances are part of the budgetary process and are included in actual expenditures when a comparison with budget is necessary. Encumbrances at year-end are not considered expenditures in the financial statements presented on the GAAP basis.

Cash and Cash Equivalents

For financial statement purposes, cash includes demand deposits and cash equivalents include amounts in money market funds. All highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Certificates of Deposit

The Affiliate's certificates of deposit as reported in the statement of net position are measured at fair value (Level 1) on a recurring basis.

Petty Cash Fund

LETA maintains a permanent petty cash fund of up to \$3,500 as authorized by the Commissioner of Administration in accordance with State law. The funds are permanently established and periodically replenished from LETA's operating fund when expenditure vouchers are presented.

Investments

Investments are carried at fair value. Purchases and sales of securities are recorded on trade dates, and realized gains and losses are determined on the basis of average cost of securities sold. Investment return includes interest, dividends, administrative fees, and realized and unrealized gains and losses, and is included in the statement of activities as increases or decreases in unrestricted net assets.

The Foundation invests in alternative investments consisting of managed futures, commodities, private equity, private real estate, and other non-traditional investments. These investments utilize a variety of instrument strategies incorporating marketable securities and, in some cases, derivative instruments, all of which are reported at fair value by the fund managers.

Distributions of alternative investments are recognized as income to the extent of the Foundation's share of undistributed income of such investments; distributions in excess of the amount recognized as income are recorded as a reduction of investment cost. Investments considered to be permanently impaired in value are written down to their estimated net realizable value and the write down is recorded as a realized loss on investments.

Accounts Receivable

Accounts receivable consists primarily of amounts owed by customers for educational, production, and uplink services provided. Management periodically reviews the status of all accounts receivable balances for collectability. Each receivable balance is assessed based on management's knowledge of the customer, the relationship with the customer, and the age of the receivable balance. As a result of these reviews, customer balances deemed to be uncollectible are charged to the allowance for doubtful accounts. LETA's management and the Component Unit's management has determined that the accounts receivable balance to be collectible and an allowance for doubtful accounts is considered unnecessary.

Contributions Receivable

The Affiliate's unconditional promises to give are primarily receivable from individuals and are carried at net realizable value, which approximates the present value of estimated future cash flows. Each receivable balance is assessed based on management's knowledge of the donor, the relationship with the donor, and the age of the receivable balance. As a result of these reviews, donor balances deemed to be uncollectible are charged to the allowance for uncollectible accounts in the amounts of \$10,684 and \$10,147 for the years ended June 30, 2018 and 2017, respectively.

Cost of Programs Not Yet Broadcast

Costs the Foundation incurs for programs not yet broadcast are reported as prepaid expenses. Such costs relate to program rights purchased by the Foundation that will be broadcast subsequent to June 30. Programs broadcasted within one year are classified as current assets whereas programs to be broadcasted in more than one year are classified as long-term. At June 30, 2018, there were no long-term costs incurred for programs not yet broadcast. As the programs are broadcast, the costs incurred will be included in operating expenses. Program status is evaluated annually. Costs associated with programs not considered to have future benefit are adjusted to net realizable value.

Capital Assets

Capital assets acquired by LETA are not included in the accompanying financial statements, but are reported in the State of Louisiana's comprehensive annual financial report. LETA acts only as a custodian of these assets and title actually rests with the State of Louisiana.

The Component Unit's equipment is stated at cost less accumulated depreciation and is depreciated using the straight-line method over the estimated useful life. Expenditures for repairs and maintenance are charged to operating expense as incurred.

The Affiliate's policy is to capitalize property and equipment over \$1,000. The equipment is stated at cost less accumulated depreciation and is depreciated using the straight-line method over the estimated useful life. Expenditures for repairs and maintenance are charged to operating expense as incurred.

Donations of property and equipment are recorded as contributions at their estimated fair value. Such donations are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose. The entities received no donated asset during the current fiscal year.

Accrued Compensated Absences

Employees of LETA, both classified and unclassified, earn annual and sick leave at various rates depending on the number of years of service. There is no limit on the amount of annual or sick leave that can be accumulated. LETA is legally liable to compensate an employee upon retirement or termination for up to 300 hours of unused annual leave. Upon retirement, the number of hours of unused annual leave in excess of 300 hours plus the number of hours of unused sick leave is computed into years or fraction of years and is added to the number of years of service earned by the retiree. The unused annual and sick leave is counted towards the number of years of service only for computing the rate of retirement pay due the retiree and does not count toward the number of years necessary for retirement. The liability for unused annual leave payable at June 30, 2018 and 2017 is \$483,261 and \$472,826, respectively.

The cost of leave privileges is recognized as an expense and a liability in the financial statements in the period in which the leave is earned. The compensated absences liability is recorded as a long-term liability with the portion expected to be paid within one year recorded as a current liability and an expense allocated on a functional basis. The accrued compensated absences balance is not recorded in the governmental fund-type financial statements at June 30, 2018 and represents a reconciling item between the fund and government-wide presentation.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Post-Employment Health Care and Life Insurance Benefits

The Board provides certain continuing health care and life insurance benefits for its retired employees. The Board recognizes the expense of providing these retiree benefits in accordance with GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This balance represents a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expenses) until then. The Board has the following items that qualify for reporting in this category:

Pension plan – these deferred outflows result from pension contributions after the measurement date (deferred and recognized in the following fiscal year) and changes in assumptions, differences in projected and actual earnings on pension assets, and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five year period).

OPEB plan – these deferred outflows result from OPEB contributions after the measurement date (deferred and recognized in the following fiscal year).

Deferred Inflows of Resources

Deferred inflows of resources are acquisitions of net position by the Board that is applicable to a future reporting period and so will not be recognized as an inflow of resources until then. The Board has the following items that qualify for reporting in this category:

Pension plan – these deferred inflows result from differences between expected and actual experience and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five year period).

OPEB plan – these deferred inflows result from changes in assumptions and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five year period).

Underwriting Contributions

The Component Unit records revenue from program underwriting on a pro rata basis for the period covered, and for production underwriting on an estimated percentage-of-completion basis.

Grants and Contributions

Grants and contributions received by the Component Unit restricted to support such programs are included in deferred revenue if the donor requires commensurate value in return for their support. In such cases, the costs incurred by the Component Unit will be recorded as expenses and the deferred revenue will be recognized as revenue when the programs are initially broadcast. If the donor's support is nonreciprocal in nature, the grants and contributions are included as revenue in temporarily restricted net assets. The related costs incurred by the Component Unit are recorded as net assets released from restrictions and as unrestricted expenses in the accompanying statement of activities.

Lease Revenue

LETA and the Component Unit entered into contracts with Nextel Spectrum Acquisition Corporation (Sprint Nextel) and Clearwire Corporation (Clearwire), in accordance with Federal Communications Commission (FCC) rules, to lease excess capacity on its EBS frequencies. Under the terms of the contracts, LETA and the Component Unit retain the license on the EBS frequencies and have responsibility for compliance with all educational and other requirements imposed by the FCC. The contracts require upfront payments that are recorded as deferred inflows of resources and amortized over the life of the lease. In addition, LETA and the Component Unit receive monthly and anniversary payments which are recognized as revenues when earned. LETA lease revenues from EBS frequencies totaled \$332,114 and \$147,167 for the years ended June 30, 2018 and 2017, respectively. The Component Unit's lease revenues from EBS frequencies totaled \$193,140 and \$83,076 for the years ended June 30, 2018 and 2017, respectively.

Production Revenue and Expense

The Component Unit uses the percentage-of-completion method of accounting for production revenue, whereby the cumulative production revenue earned equals the ratio of costs incurred to the estimated total costs at completion applied to the total committed revenues from outside sponsors. Production costs include charges by subcontractors plus all direct labor and other direct costs. Indirect and general and administrative expenses are charged to expense as incurred.

Cost estimates on programs are reviewed periodically as the work progresses and adjustments, if needed, are reflected in the period in which the estimates are revised.

Advertising Costs

Advertising costs are expensed as incurred. Advertising expense for the Component Unit was \$49,711 and \$50,442 for the years ended June 30, 2018 and 2017, respectively.

New Accounting Pronouncements

In fiscal year 2018, LETA's management adopted the provisions of the Governmental Accounting Standards Board Statement No.75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* ("GASB 75"). This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. The adoption of this principal resulted in the restatement of beginning net position – see Note 16 for the cumulative effects.

Income Taxes

The Component Unit and Affiliate have been recognized by the Internal Revenue Service as organizations exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in these financial statements. With few exceptions, the Component Unit and Affiliate are no longer subject to federal or state examinations by tax authorities for the years before 2015.

The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Component Unit and Affiliate may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. There were no unrecognized tax benefits identified or recorded as liabilities for the years ended June 30, 2018 and 2017.

2. Deposits

All monies of LETA are deposited with the Louisiana Department of Treasury, which is responsible for maintaining these deposits in accordance with Louisiana State Law. Consequently, management of LETA does not have any control over the cash balances. Deposits consist of the following at June 30:

	2018					
	C	Cash		ney rket		Total
Deposits per statement of net position (reconciled bank balance)	\$ 2,2	298,367	\$		\$	2,298,367
Deposits held by Louisiana Treasury	\$ 2,2	290,800	\$		\$	2,290,800
Deposits held by financial institution	\$	4,262	\$		\$	4,262
Category 3 bank balances:						
a. Uninsured and uncollateralized	\$	-	\$	-	\$	-
b. Uninsured and collateralized with securities held by the pledging institution		-		-		-
c. Uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the entity's name		_		<u>-</u>		-
Total category 3 bank balances	\$	-	\$	_	\$	-

	2017					
	Cash		Money Market		Total	
Deposits per statement of net position (reconciled bank balance)	\$ 2	,337,397	\$		\$	2,337,397
Deposits held by Louisiana Treasury	\$ 2	326,547	\$		\$	2,326,547
Deposits held by financial institution	\$	2,555	\$		\$	2,555
Category 3 bank balances:						
a. Uninsured and uncollateralized	\$	-	\$	-	\$	-
b. Uninsured and collateralized with securities held by the pledging institution		-		-		-
c. Uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the entity's name		_		_		<u>-</u>
Total category 3 bank balances	\$	-	\$	-	\$	_

Custodial Deposit Risk

The Louisiana Department of Treasury is responsible for maintaining the cash balances and securing such balances from risk through custodial agreements. The risk disclosures required by accounting principles generally accepted in the United States are included with the State of Louisiana's Comprehensive Annual Financial Report.

In the normal course of operations, the Component Unit and Affiliate maintains cash deposits with major financial institutions which, from time to time, may exceed federally insured limits. Management periodically assesses the financial condition of the institutions and believes the risk of incurring material losses related to this credit risk is remote.

3. Investments

The Component Unit's investments are measured at fair value and are comprised of the following at June 30:

	2018	2017
Government and agency securities	\$ 558,182	\$ 480,251
Corporate fixed income securities	302,734	237,109
Common and preferred stocks	6,019,005	5,430,166
Mutual funds	16,491,339	15,747,143
Alternative investments	8,861,684	7,837,026
Pooled investments held by the Baton Rouge		
Area Foundation on behalf of the Foundation	991,668	888,999
	\$ 33,224,612	\$ 30,620,694

The following schedule summarizes the Component Unit's investment return, including interest and administrative fees, and its classification in the financial statements for the years ended June 30:

	 2018	 2017		
Net realized and unrealized gain on investments	\$ 1,496,475	\$ 3,221,255		
Interest and dividend income	1,068,942	503,403		
Investment fees	 (112,886)	(110,653)		
	\$ 2,452,531	\$ 3,614,005		

Custodial Credit Risk

The risk that in the event of the failure of the counterparty to a transaction the Component Unit may not be able to recover the value of investments that are in the possession of an outside party. At June 30, 2018 and 2017, the Component Unit's investments in common and preferred stocks and mutual funds are uninsured on the performance of the custodian and are exposed to custodial credit risk because they are held by the counterparty, but not in the Component Unit's name. The Component Unit's investments in mutual funds, money market funds, and external investment pools are not susceptible to custodial credit risk because its existence is not evidenced by securities that exist in physical or book entry form.

Interest Rate Risk

The risk that changes in interest rates will adversely affect the fair value of investments. Also, investments can be highly sensitive to changes in interest rates due to their terms or characteristics. At June 30, 2018, the Component Unit invested \$558,162 in government and government agency securities and \$302,734 in corporate fixed income securities which mature in one to five years. At June 30, 2017, the Component Unit invested \$480,251 in government and government agency securities and \$237,109 in corporate fixed income securities which mature in one to five years.

Credit Risk

The risk that the issuer or counterparty will not meet its obligations. This credit risk is measured by the credit quality ratings of investments in debt securities as described by nationally recognized statistical rating organizations (rating agencies) such as Standard & Poor's (S&P) and Moody's. The Component Unit limits its investment in bonds to those classified as investment grade by S&P (EBB or better) and Moody's (Baa or better). Investments in commercial paper must have a rating of not less than AI by S&P and PI by Moody's.

Concentration of Credit Risk

The risk of loss that may occur due to the amount of investment in a single issuer. The Component Unit's investment policy establishes a target asset mix which is meant to diversify the portfolio and pose a lower risk that a concentration may exist.

4. Board Designated Endowment

The Component Unit's Board of Directors has designated 12% of total investments as a general endowment fund to support the mission of the Component Unit. Since the endowment resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted.

The Component Unit has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while maintaining the purchasing power of the endowment assets. To satisfy its long-term rate-of-return objectives, the Component Unit relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Component Unit targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

Accordingly, over the long term, the Component Unit expects the current spending policies to allow its endowment to grow annually. This is consistent with the Component Unit's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. The following schedule summarizes the changes in the Component Unit's endowment net assets for the years ended June 30:

	 2018	 2017
Beginning balance	\$ 4,175,548	\$ 3,672,223
Net purchases / sales of investments	151,016	144,299
Net realized and unrealized gains on investments	204,064	359,026
Ending balance	\$ 4,530,628	\$ 4,175,548

The Component Unit's board designated endowment was comprised of the following at June 30:

	 2018		2017
Government and agency securities	\$ 76,115	\$	65,489
Corporate fixed income securities	41,282		32,333
Common and preferred stocks	820,773		740,477
Mutual funds	2,248,819		2,147,337
Alternative investments	1,208,411		1,068,685
Pooled investments held by the Baton Rouge			
Area Foundation on behalf of the Foundation	 135,228		121,227
	\$ 4,530,628	\$	4,175,548

The following schedule summarizes endowment investment return(loss), including interest and administrative fees, and its classification in the financial statements for the years ended June 30:

	2018		2017
Net realized gain(loss) on sale of investments Interest and dividend income	\$ 204,064 145,765	\$	439,262 68,646
Investment fees	(15,394)		(15,089)
	\$ 334,435	\$	492,819

The investments note disclosure for custodial credit risk, interest rate risk, credit risk, and concentration of credit risk at Note 3 also applies to the investments held as endowment net assets.

5. Fair Value Measurements

The Foundation has categorized its applicable financial instruments into a required fair value hierarchy. The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value which are as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Board has the ability to access.
- Level 2 inputs to the valuations methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value
 measurement. Unobservable inputs reflect the Board's own assumptions about the inputs market
 participants would use in pricing the asset or liability (including assumptions about risk).
 Unobservable inputs are developed based on the best information available in the circumstances and
 may include the Board's own data.

The Foundation uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market funds and investments in common and preferred and mutual funds are valued at the quoted market prices in the active market on which the individual securities are traded.

The investments in the BRAF pool represent various specific investments and various pools of funds held by BRAF for the benefit of the Foundation and other non-profit organizations. These funds are measured on a recurring basis through estimates and assumptions made by the Baton Rouge Area Foundation. All of the Foundation's pooled investments held by the Baton Rouge Area Foundation are considered level 2 investments.

The following table sets forth by level the Component Unit's assets at fair value as of June 30, 2018:

	Level 1	Level 2	Level 3	Total
Cash equivalents				
Money market funds	\$ 346,254	\$ -	\$ -	\$ 346,254

•	\$	19,217	\$	(1,074)	\$	_	\$	18,143		

7. Noncurrent Liabilities

The following is a summary of changes in LETA's noncurrent liabilities:

	Balance at June 30, 2017	Additions	Payments and Reductions	Balance at June 30, 2018	Due in One Year
Accrued compensated absences Pension liability OPEB liability	\$ 472,826 13,788,371 11,435,950	\$ 116,508 319,928 13,980,581	\$ (106,073) (1,895,789)	\$ 483,261 12,212,510 25,416,531	\$ 24,163
	\$ 25,697,147	\$ 14,417,017	\$ (2,001,862)	\$ 38,112,302	\$ 24,163

The OPEB liability balance at June 30, 2017 has been restated as a result of LETA adopting GASB 75 during the 2018 fiscal year. See Note 1 and Note 16.

8. Commitments

Louisiana Educational Television Authority

LETA leases multiple tower sites and satellite space to broadcast programs under non-cancelable lease agreements. LETA's aggregate remaining minimum rental commitments under these leases are summarized as follows:

Year Ending June 30:	Amount		
2019	\$	502,895	
2020		502,895	
2021		502,895	
2022		169,820	
2023		35,060	
Thereafter		24,950	
	\$	1,738,515	

Rental expense for the years ended June 30, 2018 and 2017 was \$570,024 and \$577,890, respectively, and is reported as broadcasting expenses in the accompanying financial statements.

Foundation for Excellence in Louisiana Public Broadcasting

The Foundation was committed to construction and engineering contracts during 2018. The significant commitments are as follows:

		Estimated		Costs Incurred		Reimbursement		
		Cost		Cost to Date		to Date	Requeste	
Television Repack Project - KLTS Television Repack Project - KLPA	\$	3,590,789 3,100,250	\$	842,947 1,145,211	\$	828,607 874,596		
Television Repack Project - KEFA	_	6,691,039	•	1,988,158	\$	1,703,203		
	Ψ	0,071,037	Ψ	1,700,130	Ψ	1,703,203		

As part of the broadcast spectrum incentive auction, the Federal Communications Commission (the "FCC") is authorized to repack the television band by assigning television stations to new channels. Nearly 1,000 stations will be moved to new channels including the Foundation. As part of the move to new channels, the Foundation must update existing broadcasting equipment located in Alexandria and Shreveport.

The Spectrum Act (the "Act") provides \$1.75 billion to be expended for reimbursement payments to involuntarily repacked broadcasters. The Spectrum Act requires that the FCC "reimburse costs reasonably incurred by" broadcast television licensees that are reassigned to new channels that incur costs related to continuing to carry the signals of broadcast stations moving to a new channel.

The FCC will reimburse broadcasters by providing initial allocations of funds based on their estimated costs and the amount of funds available followed by one or more additional allocations, to the extent necessary, prior to the end of the three-year reimbursement period. Subject to fund availability constraints, the FCC will issue broadcasters initial allocations equivalent to up to 90% of their estimated costs eligible for reimbursement. Funding received is not susceptible to an audit under Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); however, the FCC conducts audits of fund recipients.

9. Other Postemployment Health and Life Insurance Benefits

Plan Description

The Office of Group Benefits ("OGB") administers the State of Louisiana's post-retirement benefits plan – a defined benefit, multiple-employer other postemployment benefit plan ("OPEB"). OPEB provides medical, prescription drug, and life insurance benefits to retirees, disabled retirees, and their eligible beneficiaries through premium subsidies. Current employees, who participate in an OGB health plan , while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement systems (Louisiana State Employees' Retirement System, Teachers' Retirement System of Louisiana, Louisiana School Employees' Retirement System, or Louisiana State Police Retirement System,) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3.303. Benefit provisions are established under R.S. 42:851 for health insurance benefits and R.S. 42:821 for life insurance benefits. The obligations of the plan members, employer(s), and other contributing entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2018. The plan is funded on a "pay-as-you-go basis" under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

Employer contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and Part B coverage also have access to four fully insured Medicare Advantage plans.

The employer contribution percentage is based on the date of participation in an OGB plan and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

Service	Employer Percentage	Employee Percentage
Under 10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retirees and spouses of retirees subject to maximum values. Employers pay approximately 50% of monthly premiums for individual retirees. The retiree is responsible for 100% of the premium for dependents. Effective January 1, 2018, the total monthly premium for retirees varies according to age group.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability

At June 30, 2018, LETA reported a liability of \$10,954,217 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2017, and was determined by an actuarial valuation as of that date. LETA's proportionate share of the restated total collective OPEB liability at June 30, 2017, totaling \$10,954,217, was determined using a roll back of the same valuation to July 1, 2016, using the discount rate applicable on that date, and assuming no experience gains or losses.

LETA's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At June 30, 2018, LETA's proportion was 0.1260%. Because the beginning balance was restated using a rollback of the July 1, 2017 valuation assuming no experience gains or losses, there is no change to the proportion since the prior measurement date.

The total collective OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial methods, assumptions, and other inputs applied to all periods included in the measurement, unless otherwise specified:

- Actuarial cost method entry age normal, level percentage of pay
- Estimated Remaining Service Lives 4.48
- Inflation rate Consumer Price Index (CPI) 2.8%
- Salary increase rate consistent with the State of Louisiana's pension plan
- Discount rate 3.13% based on June 30, 2017 Standard & Poor's 20-year municipal bond index rate
- Mortality rates based on the RP-2014 Combined Healthy Mortality Table, or RP-2014 Disabled Retiree Mortality Table; both tables projected on a fully generational basis by Mortality Improvement Scale MP-2017.

• Healthcare cost trend rates – 7% for pre-Medicare eligible employees grading down by 0.25% each year, beginning in 2020-2021, to an ultimate rate of 4.5% in 2029; 5.5% for post-Medicare eligible employees grading down by 0.25% each year, beginning in 2020-2021, to an ultimate rate of 4.5% in 2023-2024 and thereafter; the initial trend was developed using the National Health Care Trend Survey; the ultimate trend was developed using a building block approach which considers the Consumer Price Index, gross domestic product, and technology growth.

Changes of assumptions and other inputs reflect a change in the discount rate from 2.71% as of July 1, 2016, to 3.13% as of July 1, 2017.

Sensitivity of the Proportionate Share of the Total Collective OPEB Liability to Changes in the Discount Rate

The following presents LETA's proportionate share of the total collective OPEB liability using the current discount rate as well as what LETA's proportionate share of the total collective OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

	Current	1.0%
1.0% Decrease	Discount Rate	Increase
(2.13%)	(3.13%)	(4.13%)
\$ 12,862,454	\$ 10,954,217	\$ 9,448,823
	(2.13%)	1.0% Decrease Discount Rate (2.13%) (3.13%)

Sensitivity of the Proportionate Share of the Total Collective OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents LETA's proportionate share of the total collective OPEB liability using the current healthcare cost trend rates as well as what LETA's proportionate share of the total collective OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher than the current rates:

		Current Cost	1.0%
	1.0% Decrease	Trend Rate	Increase
	(6% decreasing to 3.5%	(7% decreasing to 4.5%)	(8% decreasing to 5.5%)
Proportionate share of total collective OPEB liability	\$ 9,441,423	\$ 10,954,217	\$ 12,892,453

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2018, LETA recognized OPEB expense of \$445,738. At June 30, 2018, LETA reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	-	\$	-
Changes in assumptions		-		578,866
Changes in proportion and differences between employer contributions and proportionate share of contributions		-		40,880
Employer contributions subsequent to the				
measurement date		319,406		
	\$	319,406	\$	619,746

Deferred outflows of resources related to OPEB resulting from LETA's benefit payments subsequent to the measurement date will be recognized as a reduction of the total collective OPEB liability in the next fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Period Ended:	 Amount		
6/30/2019	\$ (178,088)		
6/30/2020	(178,088)		
6/30/2021	(178,088)		
6/30/2022	 (85,482)		
	\$ (619,746)		

Payables to the OPEB Plan

At June 30, 2018, LETA had no outstanding amount of employer contributions to the plan.

10. Pension Liability

Plan Description

Employees of LETA are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System ("LASERS"). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a public financial report that can be obtained at www.lasersonline.org.

Benefits Provided

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. The majority of LASERS rank and file members may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing five to ten years of creditable service depending on their plan. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement benefits under any one of six different options providing for reduced retirement benefits payable throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service.

Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification but generally is ten years of service.

Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan ("DROP"). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan ("SDP") which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option ("IBO") in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

Disability Benefits

All members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age. Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees. For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation.

Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased member who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments ("COLA") that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) and may be amended by the Louisiana Legislature. Employee and employer contributions are deducted from a member's salary and remitted to LASERS. LETA's contribution rate is as follows:

Contribution Percentage		
Employee	Employer	
8.00%	37.20%	
8.00%	35.80%	
8.00%	37.90%	
	8.00% 8.00%	

Employees with a hire date before July 1, 2006 have a contribution rate of 7.5% and 8.0% with a hire date after July 1, 2006. LETA's contractually required composite contribution rate for the year ended June 30, 2018 was 37.90% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from LETA were \$1,288,409 for the year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, LETA reported a liability of \$12,212,510 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. LETA's proportion of the net pension liability was based on a projection of LETA's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, LETA's proportion was 0.17350%, which was a decrease of 0.00209% from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, LETA's recognized pension expense as reported on the statement of activities was \$748,379. At June 30, 2018, LETA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and				
actual experience	\$	-	\$	224,085
Changes of assumptions		48,247		-
Net difference between projected and actual				
actual earnings on pension plan investments	3	397,128		-
Changes in proportion and differences				
between employer contributions and				
proportionate share of contributions		25,674		601,576
Employer contributions subsequent to the				
measurement date	1,2	203,177		-
Total	\$ 1,0	674,226	\$	825,661

Employer contributions subsequent to the measurement date totaled \$1,203,177. The balance is reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the next fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended		
June 30:		Amount
2010	Φ.	(500.060)
2019	\$	(582,062)
2020		314,395
2021		158,923
2022		(245,868)
	\$	(354,612)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability are as follows:

Valuation date June 30, 2017

Actuarial cost method Entry age normal cost

Estimated remaining

service life ("ERSL") 3 years

Investment rate of return 7.70% per annum

Inflation rate 2.750%

Salary increases, including

inflation and merit increases 3.8% to 12.8%, including inflation

Cost of living adjustments

Not substantively automatic

Mortality rate

Non-disabled members Mortality rates based on the RP-2000 Combined

Healthy Mortality Table

Disabled members Mortality rates based on the RP-2000 Disabled

Retiree Mortality Table

Termination, disability, and Termination, disability, and retirement assumptions

retirement were projected based on a five-year (2009-2013)

experience study of the System's members

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The target allocation and best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 are summarized in the following table:

	Long-Term Expected Real
Asset Class	Rate of Return*
Cash	-0.24%
Domestic equity	4.31%
International equity	5.48%
Domestic fixed income	1.63%
International fixed income	2.47%
Alternative investments	7.42%
Global asset allocation	2.92%
Total fund	5.30%

Discount Rate

The discount rate used to measure the total pension liability was 7.70%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Share of the Net Pension Liability to Changes in the Discount Rate
The following presents the Employer's proportionate share of the net pension liability using the discount rate of 7.70%, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.70%) or one percentage-point higher (8.70%) than the current rate:

		Current	
	1.0% Decrease	Discount Rate	1.0% Increase
	(6.70%)	(7.70%)	(8.70%)
Employer's proportionate share			
of the net pension liability	\$ 16,940,294	\$ 12,212,510	\$ 11,110,231

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued LASERS 2017 Comprehensive Annual Financial Report at www.lasersonline.org.

Payables to the Pension Plan

At June 30, 2018, LETA had no payables to LASERS for the employee and employer legally-required contributions.

11. Retirement Plan

The Affiliate established a 401 (k) retirement plan (the "Plan") beginning on July 1, 2012. To be eligible to participate in the Plan an employee must be at least twenty one years of age and complete 1,000 hours of service every year. Employer match is discretionary and can be changed from year to year. Employees can contribute between 3% and 10% of compensation and must be uniform for all affected participants. Participants are 100% vested upon entering the Plan.

12. Related Party Transactions

An agreement was entered into between the Component Unit and the Affiliate. Under the terms of this agreement, the Affiliate transfers funds in excess of calculated amounts to the Component Unit to be used to pay for approved expenses. For the year ended June 30, 2018, Friends of Louisiana Public Broadcasting transferred \$1,283,157 to the Foundation with \$271,214 of that amount reported as a related party receivable. For the year ended June 30, 2017, the Affiliate transferred \$1,223,513 to the Component Unit with \$12,831 of that amount reported as deferred inflows of resources and \$151,003 reported as a related party receivable.

The Component Unit was organized to support LETA, the primary government. For the year ended June 30, 2018, the Component Unit provided financial support to LETA totaling \$2,860,274, with \$194,754 of that amount reported as a related party receivable by LETA and a related party payable by the Component Unit. For the year June 30, 2017, the Component Unit provided financial support to LETA totaling \$750,000, with \$9,161 of that amount recorded as a related party receivable by LETA and a related party payable by the Component Unit.

Employees of LETA perform services for the Component Unit for productions, programming, broadcasting, and administrative services. In return, the Component Unit reimburses LETA for the services performed by those personnel. These transactions are recorded as a reduction in salaries and related benefits in LETA's accounting records and as personnel expenses in the Component Unit's accounting records. For the years ended June 30, 2018 and 2017, the Component Unit reimbursed LETA \$374,838 and \$379,581, respectively, for personnel expenses.

The Component Unit reimburses LETA for the use of LETA's production, programming, and broadcasting equipment. For the years ended June 30, 2018 and 2017 the Component Unit's equipment rental expense was \$343,794 and \$405,493, respectively. The balances are reported as rental revenue by LETA.

The Component Unit rents office space from LETA on a monthly basis. Rental revenue from the Component Unit was \$8,292 for each of the years ended June 30, 2018 and 2017.

The Affiliate rents office space from LETA on a monthly basis. Rental revenue from the Affiliate was \$30,377 each of the years ended June 30, 2018 and 2017.

13. Contingency

LETA and the Foundation participates in a number of federal and state programs. These programs require LETA and the Foundation to comply with certain requirements of laws, regulations, contracts, and agreements applicable to the programs in which it participates. All funds expended in connection with government grants and contracts are subject to audit by government agencies. While the ultimate liability, if any, from such audits of government and contracts by government agencies is presently not determinable, should not, in the opinion of management, have a material effect on the financial position or results of operations. Accordingly, no provision for any such liability that may result has been made in the accompanying financial statements.

14. Risk Management

Losses arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund operated by the Office of Risk Management, the agency responsible for the state's risk management program, or by General Fund appropriation.

There is no pending litigation or claims against LETA at June 30, 2018, which if asserted, in the opinion of LETA's legal advisors, would have at least a reasonable probability of an unfavorable outcome or for which resolution would materially affect the financial statements.

15. Concentrations

In the normal course of operations, the Component Unit and Affiliate maintain cash deposits with major financial institutions which, from time to time, may exceed federally insured limits. Management periodically assesses the financial condition of the institutions and believes the risk of incurring material losses related to this credit risk is remote.

Included in receivables are amounts due from various entities for such items as underwriting agreements, educational services, and production services. Payment of these accounts is dependent upon the various entities' ability to fund their projects and programs.

LETA received general fund appropriations from the State of Louisiana totaling \$5,532,059 and \$5,747,301 for the years ended June 30, 2018 and 2017, respectively.

The Component Unit received revenue totaling \$1,823,879 and \$2,021,259 for the years ended June 30, 2018 and 2017, respectively, from the Corporation for Public Broadcasting.

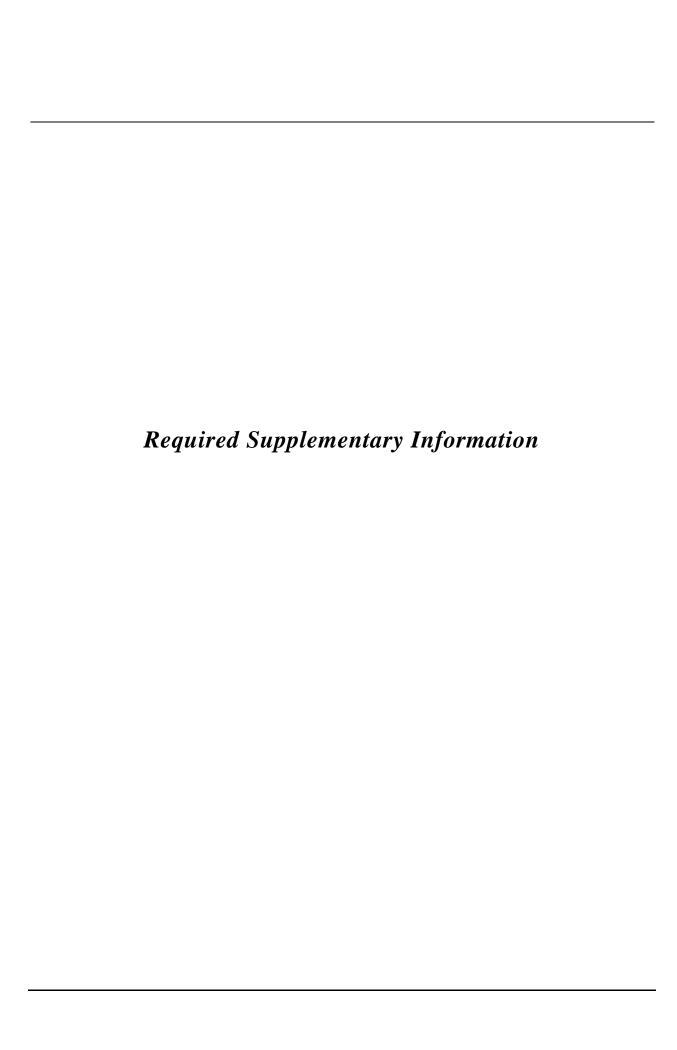

16. Cumulative Effect of Change in Accounting Principle

As a result of the implementation of GASB 75, beginning unrestricted net position was restated as follows:

Unrestricted net position at June 30, 2017, as previously reported	\$(20,059,826)
Prior period adjustment - adoption of GASB No. 75	(2,909,377)
Unrestricted net position at June 30, 2017, as restated	\$(22,969,203)

17. Subsequent Events

LETA evaluated subsequent events through January 2, 2019, which was the date the financial statements were available to be issued.

Louisiana Educational Television Authority Schedule of Budgetary Comparison – General Fund For the Year Ended June 30, 2018

	Original Budget	Final Budget	Actual	Nonbudgeted items and adjustments	Actual Amounts Budgetary Basis	Variance Favorable (Unfavorable)
Revenues		_

^{*}Amounts presented were determined as of the end of LETA's fiscal year.

Louisiana Educational Television Authority Notes to Required Supplementary Information For the Year Ended June 30, 2018

Pension Plan

Changes of Benefit Terms

A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the 2014 Louisiana Regular Legislative Session, and improved benefits for certain members employed by the Office of Adult Probation and Parole within the Department of Public Safety and Corrections as established by Act 852 of 2014.

Changes of Assumptions

The discount rate used in actuarial assumptions decreased from 7.75% in the June 30, 2016 to 7.70% in the June 30, 2017.

Measurement Date

The amounts presented within the Schedule of Employer's Share of Net Pension Liability have a measurement date of the previous fiscal year end.

OPEB Schedules

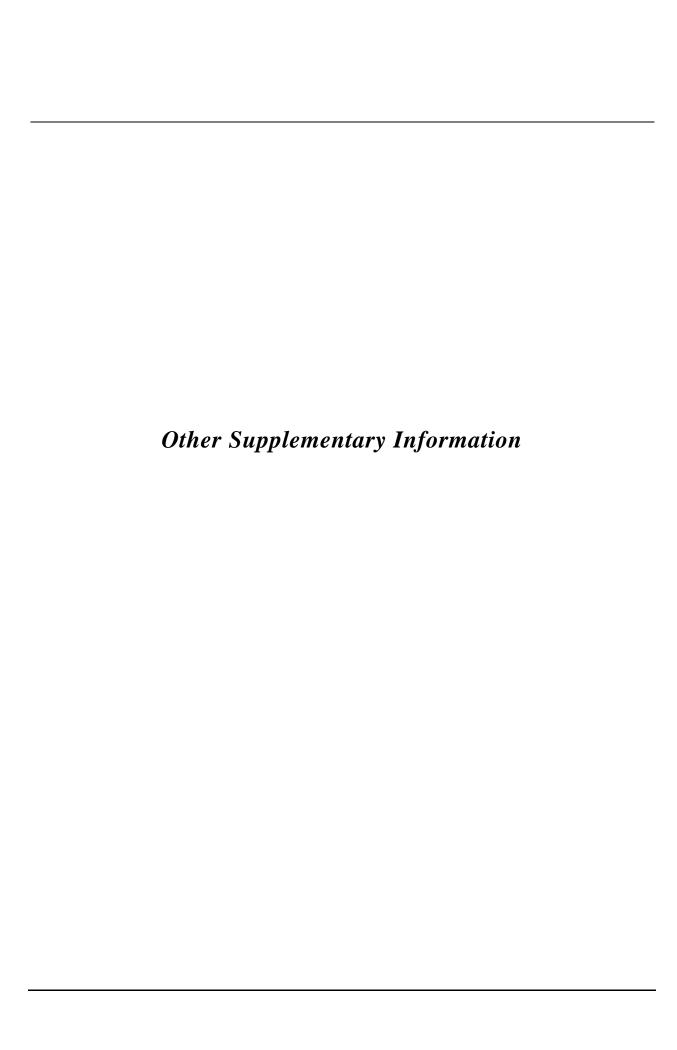

There are no assets accumulated in a trust that meets the requirements in paragraph 4 of GASB Statement 75 to pay related benefits.

Changes of Assumptions

The discount rate has been decreased from 3.80% to 3.13% since the previous valuation. Additionally, a discount rate of 2.71% was used to measure the liability using a measurement date of July 1, 2016. Under GASB 75, unfunded plans are required to use a discount rate that reflects the 20-year tax-exempt municipal bond yield or index rate. Thus, the discount rates of 3.13% and 2.71% are based on the S&P Municipal Bond 20-Year High Grade Rate Index as of June 30, 2017 and June 30, 2016, respectively. The discount rate used in the GASB 45 valuation was selected by the plan sponsor.

Changes in Population

From the July 1, 2016 valuation date to the July 1, 2017 valuation date, the number of active employees decreased from 56 to 48.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board Members of the Louisiana Educational Television Authority Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, and each major fund, of the Louisiana Educational Television Authority ("LETA"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise LETA's basic financial statements, and have issued our report thereon dated January 2, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered LETA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the LETA's internal control. Accordingly, we do not express an opinion on the effectiveness of LETA's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether LETA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
